Dear Rosemarie & Nova Catholic Community, 01/30/2014

Thank you for your generous annual gift of **\$500.00** to Women's Global Education Project in 2013. Through your committed and continued support, you are helping girls succeed in school and beyond.

Your gift helps WGEP provide tutoring, mentoring, and community support to girls in rural Senegal and Kenya. With your generous support in 2013, WGEP was able to provide over **700** rural girls with an education. Moreover, our programs for education, support and awareness impacted over **7,000** girls, women, family members, and village residents! We could not do this work without your help.

As WGEP celebrates its 10th anniversary in 2014, we advance our vision to change our world through educating even more girls. We ask you to continue partnering with us as we look ahead to a shared vision for the next 10 years. To increase our impact of 7,000 individuals reached through our programs, we're expanding! WGEP will use technology in Senegal to help students learn to read and in Kenya will include both boys and girls in the fight against female genital mutilation. All of our successes would not have been possible without your steadfast support.

Please save this written acknowledgment of your kind donation for your personal records; no goods or services were exchanged for this donation. Thank you for joining us in this important, life-changing work. Together, we are making a difference!

Sincerely,

**Amy Maglio
